

War secrets of the Axis dictated by Mussolini's son-in-law. The one great historical document that has come out of World War II is Ciano's diary, appearing today in *The Edmonton Bulletin*. It is the first time to read this revealing document exclusively in Alberta's first newspaper.

## Ciano's Diary

### The Stage Is Set For War as British Try Appeasement

Await Only End of Fighting in Spain and Signing of Alliances

This is the second article taken from the revelations of Count Ciano, as dictated in his diary during the days when the dictators were planning to rule the world.

Copyright, 1945, by The Chicago Daily News, Inc. and The Edmonton Bulletin. All rights reserved for all countries, including right of translation.

Jan. 1—March 2, 1939

The intimate diaries of Count Ciano, Mussolini's son-in-law, disclose that appeasement had gone so far in 1939 that Prime Minister Neville Chamberlain of Great Britain submitted a House of Commons speech for Mussolini's approval, lest the dictator take offense.

Ciano, whose personal records are being published exclusively in the *Edmonton Bulletin*, described Chamberlain's visit to Rome, Jan. 11-14, 1939, as a "big lemonade," a lot of nothing.

The Axis were setting the stage for war in Europe. It waited only the end of fighting in Spain and the formal conclusion of the military alliance between Rome and Berlin.

France was a "subordinate," France was on the spot; the Balkans were seething; Albania scheduled for slaughter.

Mussolini and Ciano conferred on New Year's Day, 1939, and the inside story of the Axis begins in these words from Ciano's voluminous diary.

JAN. 1—"The Duke" communicated to me his decision to accept Von Ribbentrop's proposals for the anti-Comintern pact into an alliance. He considers a clash with the western democracies more and more inevitable in advance. During this month he and I will be working in the garden, to which he will be "sent" after the war.

TWO DAYS LATER Ciano and Ciano's wife, Edda, called on Mussolini with gifts for the day. Ciano was accompanied by his son, Galeazzo, and his daughter, Edda.

Violent Storm Sweeps District One of the most violent storms of the year lashed the city and district Saturday afternoon, when heavy rain and hail were whipped by winds which averaged 30 miles an hour.

Brilliant flashes of lightning and roaring thunder accompanied the rain and hail, which was in intensity as the storm increased in violence. At the peak of it it flashed after flash lighted the dark storm clouds.

A brief hail storm did extensive damage to crops in the Namsa district and hurtling winds in the city. A total of 24 inches of precipitation was recorded at the city and district. The weather is "Cool tonight, bright Tuesday." The estimated high for the day is 64.

Winds Sunday averaged about 30 miles an hour with gusts up to 40 miles an hour. Maximum temperature Sunday 64. Estimated overnight low is 38, and the high tomorrow, 71.

Burned to Death BIANCONI, Max, Aug. 20—(CP)—Garry Beattie, 25-year-old son of Mr. Max Beattie, 40, of the Namsa district, was burned to death here yesterday when fire destroyed a shed in which he was sleeping.

For 1944-45 Surplus of \$3,374,514 Shown by Alberta Govt.

Alberta government fiscal operations for the 1944-45 fiscal year resulted in an over-all surplus on income and capital accounts of \$3,374,514, according to a statement issued Monday by authorities of Premier Ernest Manning.

A \$3,885,800 surplus is revealed by the report on income account, from which capital expenditures of \$251,286 were deducted. The income and capital surplus of \$3,374,514 is \$1,678,457 below that reported for the fiscal year ending March 31, 1944.

The report, compiled by C. K. Hockley, provincial auditor, was issued in advance of the annual provincial public accounts which will include available net revenue, general revenue fund of the province but excludes other corporate monies administered by the province.

ACTUAL REVENUE Actual revenue on income account during the 1944-45 year was \$1,678,457, according to the report.

Stays on Guam GUAM, Aug. 20—(AP)—Admiral Nimitz will maintain his headquarters on Guam for the time being, his aides said yesterday, although he contemplates establishing headquarters in the Tokyo area eventually.

Drops Knighthood BOMBAY, Aug. 20—(CP)—Sir Nikhilbanu Narayan Hindu, leader, has relinquished his knighthood in protest against Viceroy Lord Mountbatten's "party representation" of Hindus and Muslims in a Ceylon Indian government.

## Result Differs

### 2nd Russo, Nippon War Now Ended

LONDON, Aug. 20.—(CP)—Russian troops have occupied Harbin and Mukden, tonight's Soviet communiqué stated. It added that Japanese resistance has ceased in the southern part of Sakhalin Island, across a narrow strait from the Japanese homeland.

From CP, AP and British CP

MOSCOW, Aug. 20.—The second Russo-Japanese war has ended. The Japanese situation reversed, for now it is Russia which will dictate the peace terms, a complete change from the first Russo-Japanese war of 1904 and 1905 when Tokyo called the tune to which the Russian bear was made to dance.

The 11-day 1945 war ended with capitulation of the Kwangtung army, much-vaunted crack Japanese military force that launched Japan's bid for Asiatic command.

It was a full-scale war, which since that time has been continuously in action. It was regarded as Japan's finest fighting force, but it fell back before the Soviet advances, and on Sunday Red Army troops occupied Manchuria's four major cities and continued on Page 2, Col. 3

EDMONTON GIVES THANKS FOR VICTORY—Several thousand Edmonton residents attended the service of thanksgiving for victory and peace held at the Legislative Buildings on Sunday under the auspices of the Edmonton General Municipal Association. The upper picture shows Mayor John W. Fry on the extreme left. Next to him is Mrs. Ernest Manning and next to her is Premier Ernest Manning. In the center is Rev. Dean Trendell of All Saints Cathedral reading Scriptural passages during the service. At the right is a group of representatives of the armed services and government and civic dignitaries. Alberta Minister Urges Ottawa Explain Stand On North Road

OSLO, Aug. 20.—(BUP)—The Norwegian states charged today that Adolf Hitler intended to begin preparations for the invasion of Norway on December 31, 1939.

The charge was made at the opening of Quisling's trial on a charge of treason. He was the second of Hitler's German puppets to go on trial for his life.

Special Prosecutor Aanaas Schreid told the court that documents found in Germany during Quisling's trial showed that Hitler intended to begin preparations for the invasion of Norway on December 31, 1939.

First draft agreement received here for approval specified a one-third two-third split of cost within Alberta.

HEAVIER SHARE The Dominion was to take the heavier share. Above the Alberta boundary, Ottawa was to bear full cost of construction.

Test of Mr. Fallon's statement is believed to be the first of the proposed agreement between the Dominion and provincial governments covering the construction of the Grimshaw-Great Slave Lake road, has been received. Some of the clauses are ambiguous and even contradictory, and negotiations are under way.

U.S. Not Ending Meat Rationing

OTTAWA, Aug. 20.—(CP)—Official advice from Washington indicates that there is no immediate prospect of meat rationing being discontinued in the United States, Donald Gordon, chairman of the Prices Board, said today.

Mr. Gordon said there would be advance discussions between Canada and the United States before any change is made in the United States meat rationing system.

Canada plans to reintroduce meat rationing next autumn and the end of the war has not altered those plans.

Lauds Britons TORONTO, Aug. 20.—(CP)—The Dominion's eighth provincial liquor meeting today began a two-day session here, during which the province's liquor control board is expected to determine whether spirits should be returned to their pre-war strength and whether provincial liquor rationing quotas are to be increased.

Liquor Chairmen Studying Changes

OTTAWA, Aug. 20.—(CP)—The Dominion's eighth provincial liquor meeting today began a two-day session here, during which the province's liquor control board is expected to determine whether spirits should be returned to their pre-war strength and whether provincial liquor rationing quotas are to be increased.

## Occupation Army Goes Into Nippon Within Ten Days

From CP, AP and British CP Dispatches

GENERAL MACARTHUR'S HEADQUARTERS, Manila, Aug. 20.—An Allied army of occupation will march into Japan within ten days.

General Douglas MacArthur, Allied Supreme Commander in the Pacific, sent the Japanese surrender envoys back to Tokyo today with word that he would personally lead the occupying forces into Japan. The Allied occupation army will be fully equipped, ready to back up the occupation by force if necessary.

Spokesman for the Supreme Allied Commander revealed that the Japanese emissaries here back with them still accept orders outlining when and where General MacArthur would enter Japan to dictate the surrender terms to Emperor Hirohito.

At the same time, they revealed receipt of an urgent appeal from the Japanese to General MacArthur to intervene in China where, Tokyo said, "un- Chinese" Chinese government and Communist troops were scrambling to take over Japanese-occupied territory.

The Japanese asked General MacArthur to accept an investigating mission and to order the Chinese king and queen (Communists) to leave "Yankin" and return to their own country, and to order the Japanese to leave Japan and return to their own country.

HAMPERING THEM Tokyo said the Chinese were hampering Japan's efforts to effect an order to the Chinese king and queen to leave Japan and return to their own country, and to order the Japanese to leave Japan and return to their own country.

At the same time, they revealed receipt of an urgent appeal from the Japanese to General MacArthur to intervene in China where, Tokyo said, "un- Chinese" Chinese government and Communist troops were scrambling to take over Japanese-occupied territory.

# Over-All Shortage 100,000 Workers Still Needed Despite Lay-Offs in Canada

By JACK WILLIAMS

OTTAWA, Aug. 20.—(CP)—Despite staff reductions in war plants across Canada there still is an over-all shortage of 100,000 workers, Arthur Macnamara, director of National Selective Service, said Saturday.

## Some Secrets Of Atom-Bomb Are Disclosed

Continued from Page One

all the time. Nature produces them when cosmic rays hit atoms of air or earth. If the neutrons happen to hit the core of the atom, more neutrons are knocked loose to shoot like bullets for hundreds of feet. They penetrate air, men, walls and even steel that may be in their paths.

One of the most penetrating things known to science. In addition to cosmic rays, the alpha particles which fly from radium may set loose neutron sparks. Finally some of the atoms of uranium 235 and of the new metal, plutonium, explode spontaneously, which shoots out a stream of neutron sparks.

Everywhere, all the time, these three atomic sparks are flying. When they hit an atom of the explosive metallic powder, they split, and 13 new neutrons come flying out.

**NATURE DOES BEST**  
To produce an atomic bomb that will explode, it is necessary only to have a large enough mass of the 235 or the plutonium atoms packed closely together. Nature does the trick—the atom splits in two in the thousandth of a second, by her neutron sparks.

But the mass of these atoms necessary before there can be any explosion is quite large. The report said that this mass was figured theoretically as between two pounds and 400 pounds of either metal. What the actual experiments showed to be the smallest mass which could be handled without premature explosion is still secret.

The bomb is made by assembling a number of these chunks of not-at-all-explosive zinc. That is where the gun comes in. It shoots some of these chunks at the others in the bomb used as a target. The instant they come together the explosion occurs.

The secrets are not these principles, but how the engineers were able to make them work in a practical bomb. The report points out that the principles of the atomic bomb are not much different from those of ordinary guns.

**DESCRIBED AS TERRIFIC**  
But the problems encountered in causing the atomic chunks and all their parts to join up instantly and closely were described as terrific.

There are other problems besides this atomic sharpshoot. The rate of explosion had to be controlled. If it went too fast, or too slow, there might be a dud, which would not be very destructive, or too slow to explode at all.

The bomb has a peculiar envelope or skin, made of a chemical element which need not be very strong, since its job is to reflect neutrons back into the atomic mass inside the bomb. Otherwise many of the gun's neutrons "deteriorate" by being 100,000 times smaller than the uranium or plutonium atoms, might shoot between them without a hit and pass out into the air, reducing the number of neutrons hits to the point of nullifying the explosion. The neutrons striking the skin bounce back for another try.

The report revealed also that inside the bomb there may be chemical elements to absorb some of the neutrons at first, so as to delay slightly the start of the reaction to avoid step-by-step explosion and attain one final, full strength blast.

**SURPRISING FINDING**  
A surprising finding was the extraordinary brevity of the time interval in which the neutrons and atoms started and finished their explosion. The scientists had a staggering job to set a mechanism to perform the instantaneous assembly required.

There were both fabrication and purification problems more difficult than ever before tackled. The scientists first solved them with mathematics and experiments on minute quantities. The team which did this was one of the most brilliant assemblies ever brought together. Among them was Dr. James Chadwick, the English physicist who discovered the neutron in 1932.

They computed to advance the power of the explosion wave in air and water. The work of engineers and technologists who finally made the actual bombs is a secret.

At least two great forces give the atomic bomb its power. The force of the explosive atoms are made of plutonium and neutrons, the later electrically neutral. The protons are positively charged. When a core splits, the neutrons on each half repel each other with tremendous force. This is one of the secrets of the power. At the same time some of the mass, the actual material of the core, is lost. This mass turns into energy, as Einstein predicted back in 1905. The converted mass is the second secret.

All the facts in the war department release are either already known to the scientists of all nations, or are things they would figure out soon for themselves. Only the tremendous amount of fabrication and building a successful atomic bomb are of the sort which a technological people

# Alberta Govt. Shows Surplus On Operation

Continued from Page One

\$2,542,684, while expenditure was \$2,502,684, leaving an income account surplus of \$5,800,800. Estimated surplus for the year was \$230,261, a figure exceeded by \$3,568,438.

**Receipts on capital account** during the year were \$953,344, while capital expenditures were \$3,458,629, leaving net capital expenditure at \$2,505,285.

## MAIN SOURCES

Main sources of revenue on income account during the 1944-45 year were as follows: Dominion government subsidies, \$1,835,207; taxes, \$1,049,960; licenses, \$3,502,328; fees, \$4,841,130; profits from trading activities, \$5,804,414; petroleum expenditures, \$3,701,536.

Income account expenditures included debt charges, \$3,814,131; education, \$4,088,602; general government, \$2,570,410; public welfare, \$8,886,240; post-war reconstruction fund, \$1,542,575.

Highway expenditures during the year under review were \$1,806,086 on capital account and \$1,874,422 on income account.

Alberta Government Telephone operations for the year resulted in an operating surplus of \$2,103,828, before providing for debt charges, depreciation or capital losses. Telephone debt charges were \$2,299,529.

Revenue received by the government for the Alberta Liquor Control Board was \$3,880,970 in the year reviewed, compared to \$4,000,000 estimated as revenue. Other revenue increases over estimates were treasury branch earnings, up \$21,270 to \$316,376; succession duties, up \$478,768 to \$802,208; gasoline and fuel oil tax, up \$248,153 to \$300,125; and petroleum and natural gas fees, rentals and royalties, up \$1,782 to \$1,267,085.

Dominion government grant to the province in lieu of income tax was \$2,099,347, \$250,887 below the \$2,350,234 estimated.

Net funded and unfunded debt of Alberta as at March 31, 1945, was \$18,728,178, compared to \$14,743,200 for the previous fiscal year. Net funded debt was \$10,803,431, while unfunded debt was \$7,924,744. A total of \$4,185,152 was paid out under the Old Age Pension Act, an increase of \$177,002 over the amount estimated.

Over \$200,000 was spent under the Alberta Election Act, compared to \$300,000 estimated in the 1944-45 budget. The increase of \$197,827 is accounted for by the Aug. 1, 1944, provincial general election.

Maternity hospitalization services for the year ended March 31, 1945, below the amount estimated. Other health expenditures were \$1,054,513 given to the Central Alberta Sanatorium; mental hospitals, \$1,254,084; and the University of Alberta hospital board.

## TREASURY ACCOUNTS

Treasury branch depositors' accounts, excluding province of Alberta revenue and trust deposits, amounted to \$20,000,411 when books were closed. This sum was offset by amounts held in trust account in the Imperial Bank of Canada.

On hand at treasury branches or in transit, Dominion government debentures and loans and advances. All expenditure for administration and maintenance of treasury branches were charged to general revenue fund of the province, with the exception of \$15,000 representing government's bonuses for the period Feb. 1-March 31, 1945. This amount may be financed, in part, from the contingency reserve of \$12,000, the "pro" states.

# Scientists Rebuked

## Race for Secret Weapons In Post-War World Seen

VATICAN CITY, Aug. 20.—(AP)—L'Osservatore Romano predicted Saturday a "fierce race for secret weapons" in the post-war world and rebuked scientists who work on them.

The Vatican city newspaper said in an editorial that an armament race was an inevitable consequence of the "last atrocious episodes of the war."

Discussing post-war prospects, the newspaper also objected to the transfer of persons from one country to another to eliminate national minorities.

The newspaper said that while Pope Pius spoke of the rights of minorities and the need for protecting them, the Potsdam conference "sanctions the principle of transfer that is to say, the elimination of minorities."

"It is against the right of life to remove millions upon millions of persons from the home, churches, cemeteries and the soil sanctified by the work of their fathers," it declared.

"It was unjust yesterday, and it is unjust and ungenerous today." The newspaper said the rights of small countries "are not even talked about any more," declaring.

## STATES DISAPPEAR

"It is as if always in name, a few small states which desire autonomy have disappeared without anyone having anything to do about it." The newspaper said the Potsdam conference "promoted liberty of speech, press and religion as far as Germany was concerned, but that many millions of Catholics cannot communicate with Rome."

## Report Yugoslav Government Crisis

BELGRADE, Aug. 20.—(AP)—At Quins Grod has resigned his post as vice premier in the government of Marshal Tito, creating what political observers called the first crisis in the present Yugoslav government. Grod, leader of the Democratic party, was reported to have disagreed with provisions of the electoral laws now under consideration by a legislative committee.

# American General Found Safe, Well

CHUNGKING, Aug. 20.—(AP)—Lt. Gen. Jonathan M. Wainwright has been found safe and well, along with hundreds of other Allied prisoners-of-war, by rescue teams who parachuted to camps in China and northern China, Aug. 19.

The 61-year-old hero of Corcoran, who was brought to Chungking within a day of his capture, said he and the other American prisoners who were moved as rapidly as possible to port cities for return to the United States.

Wainwright, who was found in a prisoner camp, 100 miles north of Mukden, after three years, three months and 10 days as a captive of the Japanese.

Also in the Stan camp was the governor-general of the Netherlands East Indies, A. W. L. Tjarda van Starkenborgh van Camille, who will be brought back immediately at the request of Queen Wilhelmina of the Netherlands. Tjarda has a special job for him," Wedemeyer said.

Wainwright, of war camp in China, announced these developments yesterday. "I am in a prisoner camp, 100 miles north of Mukden, after three years, three months and 10 days as a captive of the Japanese."

# "Some day I'll own a General Motors car"

SOME day for sure! Then the transportation problem will be solved. The long waits, the heavy-burdened walks, the inconveniences and overcrowding which have been the necessary lot of every wartime traveller will then be memories instead of tiring daily realities. At your disposal will be a new General Motors car . . . a sleek, distinctive car built for economy, endurance and dependability, styled and engineered by master craftsmen in the famous General Motors tradition . . . a car eager and willing to take you safely, speedily and comfortably to your every destination, near or far.

**GRANITE CURING CLUB**, first of the city clubs to announce completion of plans for the installation of artificial ice, expects to have the plant in operation by Nov. 1, according to Bert Robertson, president of that organization. Necessary machinery already has been ordered.

The plant will be capable of taking care of eight sheets, pending change in conditions, will permit the increasing of the size of the present building, arrangements call for the placing of the existing six sheets in the meantime.

Entire cost of the undertaking is approximately \$25,000 and the finance committee responsible for raising the necessary funds is headed by Bill Gray, the other members being Harold Gaiser and Bert Robertson. It looks like a big job, but Granite curiers are all for it and intend to put it across. A Winnipeg firm will be in charge of actual construction.

## DODGERS PASS OUT

**DODGERS** passed out of the current season baseball picture as a result of the double defeat sustained at the hands of the Yanks on Sunday afternoon, but their pitch stood up under attack from the hitting Army players.

An error in each of the first two innings of the first game made things tough for Harry Baldwin and his successor Walter Johnson was in trouble only twice—the sixth and eighth when he allowed a pair of hits. Tommy Brand had the Yanks down 3-2 when the disastrous error

## Hicks Stops Arrows

## Canadians Take Game Lead In Junior Baseball Playoff

Canadians held a ninth inning threat by Arrows to a pair of runs and took a game lead in the host of the second game for the Edmonton Junior Baseball League championship Sunday afternoon when they marked up a 7-6 victory at Clarke Stadium.

Second game in the title playoff will be staged Wednesday night at Clarke Stadium starting at 8:30 o'clock. Third contest will be Friday.

Wes Hicks went the route for the winners yesterday and turned a 19 run mound job in leading the Arrows to four safe singles. His climaxes gave him a 3-0 lead in the first inning and increased it to 5-0 in the third and he was never in serious trouble.

O'Neill, chunky Arrows curveballer, pitched a rousing game in striking out 14 and scoring seven runs but didn't get enough support from his mates who kicked in with eight errors. He never allowed a single and earned run, however.

Knights by Harold Boychuk and Doc Metterling along with two stolen bases, a passed ball and an error, gave the Canadians their first two markers. A safety by Boychuk followed by five errors gave them three more in the third.

Arrows got one in the sixth, but Canadian came back in the eighth in the last of the seventh. Arrows then got a life on a walk and two errors in the eighth and two and then threatened to tie up the game in the ninth with first up.

In the ninth, O'Neill, first up, was walked and then Hicks knuckled Lou Deutch a free ticket. Ted Kinsella came up with a timely base knock to left field, driving in O'Neill and sending Deutch to second. Kinsella was forced at second when Bill Kettling made from a fielder's choice, but Deutch went to third on the fielder's choice and stole home on a smart play. Franchitter, Elmer Ross grounded out and Roy Stewart hit an infield fly for the third out and Canadians won the game.

# Yanks Defeat Dodgers in Doubleheader

## Arrows Play Signals in Semi-Final

**TAKING** the first half of their doubleheader at Renfrew Park on Sunday afternoon 11-5 and the second game 10-3, Yanks squelched Dodgers' hopes of securing a berth in the semi-final playoff series in the Senior Baseball League.

Two fixtures called for in the regular schedule are still unplayed. Arrows versus Yanks and Dodgers versus Signals.

Arrows, however, hold a two-game lead over the fourth-place Dodgers and the completion of the schedule will not affect the relative positions of these two clubs.

Arrows accordingly have decided to proceed at once with the playoffs. A meeting has been called for tonight to arrange details, but it is anticipated the best decision will be reached on Tuesday night. The final against Yanks will be a best-of-seven affair.

Arrows have applied for permission to use Albert Superstein, Dodger center fielder, as a replacement for Jack McGill who will be lost to the club as a result of entering the hospital for an appendectomy.

Bob Wheatley pitched for Yanks in the opening game on Sunday and held the Dodgers in line for four of which were bunched in the first two innings. Morgan, single, Governor doubled and both came in on Superstein's sacrifice to center. Baldwin's safety brought in Superstein.

Dodgers got a lead of 1-0 in the fourth and two more in the eighth, scoring a run each time, but when in the ninth inning was in complete control.

Yanks collected two runs in the first and three in the third, four of which were earned. Frank Johnson pitched for Yanks in the third.

Yanks gained a pair of hits in the fourth and two more in the eighth, scoring a run each time, but when in the ninth inning was in complete control.

Yanks picked up two unearned runs right back with three consecutive hits in the fifth. Morgan, single, Governor doubled and both came in on Superstein's sacrifice to center.

Yanks got a lead of 1-0 in the fourth and two more in the eighth, scoring a run each time, but when in the ninth inning was in complete control.

Yanks got a lead of 1-0 in the fourth and two more in the eighth, scoring a run each time, but when in the ninth inning was in complete control.

## Cop 14-Inning Tilt

## Walk-Rites Beat Calgary To Win Provincial Title

After losing the first game in Calgary last week, Edmonton Walk-Rites came back to sweep both fixtures from the Calgary Helldogs at Kingsway Park to win the provincial girls' football championship this week end.

The local girls won Saturday's game 1-0, while yesterday the score was Walk-Rites 6, Helldogs 1 in 14 innings.

Marg Royce, neevely Walk-Rites shortstop, scored the one and only run of the first game in the opening frame Saturday night. After hitting a single she moved to second on an error and scored home as Frances Zavitz also singled.

The final game on Sunday was packed with excitement and took five extra innings before the Edmonton girls were proclaimed champions.

After trailing 4-3, Calgary came through with a three-run rally in the last inning to lock the game and force it into extra frames. In the top of the 10th, the visitors squeezed out in singles by Dot Scott and Doris Fanning, plus a stolen base.

A real story book finish resulted in the bottom half of the extra fifth frame after the Walk-Rites tied it up on successive singles by Dolly Brown, Frances Zavitz and Minnie Wilton with one out. Then after Isabel Whitely struck out to make it two away with the bases full, Eleanor Myers walked to force in the winning run and gave the Walk-Rites the championship.

At the time Myers was accidentally injured with her bat striking her leg and also was given some assistance to first. The Calgary club put a strong protest claiming that such a thing is illegal. However, the umpires ruled the winning run legal when the player at first walked. It was said that the Calgary team may file a protest.

**Moose Win Over RCAF Flyers 3-2**  
In a senior men's football fixture yesterday afternoon at Kingsway Park, the Moose took a firmer grip on the second place standing by edging out RCAF Flyers 3-2.

With the score tied at 2-2 at the end of the fifth, the Lodgemen pushed across the winning run in the top half of the sixth when Mickey Cheekins got a life on an error, score second, and crossed the plate on Alex Yack's lead.

Score by innings:  
Moose 200 00 0-3-4  
Flyers 100 100 0-2-4  
Kitt and Yack: McClellan and Lang.

## Edmonton Chinese Residents Hold Dance to Celebrate Victory Day

Like a Hollywood Far East festivity came to life, two solid blocks of downtown Edmonton streets Saturday night resounded to the echoes of off-beat songs, rattling firecrackers and shrieks coming from huge, imitation dragons.

The capital city's Chinese residents were "letting off steam" in a manner which few occidental citizens had seen outside of a Vancouver Chinatown's New Year's Eve celebrations. To the Chinese their families and their friends, Saturday night, from 9 p.m. to well after midnight, was a time to recall happier days eight or nine years ago, when there was no Japanese war monster rearing their native cruelty.

### STREET DANCE

The Edmonton Chinese Benevolent Society provided the "bone" of the evening's enjoyment with a street dance opposite the Market Square. The "meat" was supplied by the aura of complete joy that clouded the lantern-lit district.

Chinese merchants of all trades, the greengrocer, cafe pro-

prietor, the time-honored lam-drummer all "let down their hair" and tripped the light fantastic to the music of two orchestras, one of them a Chinese reed ensemble, the other a Canadian band that dished up the latest "jazz-bucket blues".

For the tempestuous war, there were refreshments. For the teenagers, well-represented, there was enough enthusiasm to carry the dance to a successful conclusion. And for the hundreds of others who watched and participated, the evening was something new in the annals of V-J Day celebrations.

### Urges Good Faith To Back Charter

LAKE COUCHINGHOE, Ont. Aug. 20.—(CP)—Secretary of State Paul Martin in an address to the Canadian Institute on Public Affairs yesterday said the world security charter framed at San Francisco had "all the ingredients of success" but there must also be good faith and the necessary good faith among the nations concerned to make it work.

## Peplums Play Up To Slim Hips

Straight and narrow is this summer's silhouette, showing off slim hips with a hip little peplum... like this white-lace-trimmed Cape of New York.

Would a few pounds less let you wear fashion like the "Tee" we're for in the "Killing Weight Control Plan," a four-part guide with 63 reducing recipes planned for your own needs.

These menus include Kellie's All-Three because it is guaranteed, on a double-your-money-back basis, to

help you keep regular naturally. And, being made only from the rich natural grains of the wheat, it is mild on your "digestive" food doesn't hurt your body, must have, diet or no diet.

No wonder this delicious cereal is served by nearly one out of every ten families in Canada. Order Kellie's All-Three today. To get the "Killing Weight Control Plan," cut the coupon from the package, print your address and request on it and mail to Kellie Co. of Canada, Ltd., London, Ontario, Dept. H-1.

I SAW TODAY—Alex Campbell driving east on Jasper avenue.

AND Roy Buckham walking north on 101 street. Leslie Fredericks chatting with a friend in front of the post office. Jean Napier entering the Taylor building. Bruce Collins waiting for a street car at an early hour. Bill Hamilton running the corner of 101 street at Jasper. Paul Guy having a morning cup of coffee.

## The Inquiring Reporter

THE QUESTION What do you think of the announcement that most rationing will be ended in Canada despite the cessation of hostilities?

### THE ANSWERS

MRS. IDA BROWN, housewife: It is not surprising to me. After all the ration was planned to meet the needs of the war and to keep the people from being fed the people of the liberated countries and those people have to be fed whether the war is over or not.

JIM BLACKWOOD, electrician: With rationing coming off gas, line and other luxury items, it seems queer to start meat rationing after the war is all over.

HELEN MACDONALD, stenographer: Canada has to do her share to help feed the people of the liberated countries and I guess such a measure is necessary. It may be a little inconvenient for the meat planners, but the ration is still fairly generous.

### 98,813 Canadians Now Repatriated

OTTAWA, Aug. 20.—(CP)—Approximately 98,813 of the 100,000 army and RCAF men scheduled to be returned to Canada between V-J Day, May 8, and the end of the year, now have been repatriated. There were 2,578 army, air force and navy men aboard the Duchess of Richmond, which arrived Saturday night at Quebec.

### To Lift Censorship

WESBARDEN, Aug. 20.—(AP)—General Eisenhower has announced the lifting of all censorship restrictions in the European theatre immediately after the announcement of V-J Day. United States forces European theatre, headquarters said Saturday night.

## At Special Service

# Thanks Are Given For Allied Victory

Victory over Japan—shattered remnant of the totalitarian triumvirate that tried to wipe Democracy from the face of the earth—was observed by more than a thousand Edmonton residents Sunday afternoon at a special service of thanksgiving held in the Legislative Buildings grounds.

Sponsored by Edmonton General Ministerial Association, the service attracted citizens from all walks of life. Service men and women, American G.I.s and soldiers, Canadian nursing sisters and some European homes are all billed memories. All came to give thanks to God for peace which once more has stilled the murderous rap of machine gun and clash of bayonet.

Sharp wind and a clearing sky lent emphasis to the quiet and reverent yet burden-lifted bearing of those giving thanks for the world's first peacetime Sunday in almost six years.

### CONDUCTS SERVICE

The Rev. J. Macbeth Miller, ministerial association president, led the service, at which Lt.-Col. Robert L. Dougherty, division chaplain, USAF, gave the address. Music was supplied by the Salvation Army Young Peoples' band, under the direction of band leader Fred Hall.

Others taking part in the service were Brig. R. Mayner, Salvation Army, who read Scripture passages; the Very Rev. A. M. Trendel, All Saints' Cathedral, who led in prayer, and Canon C. F. A. Clough, who delivered the invocation.

Special guests at the service included His Honor Lt.-Gov. J. C. Brown, Premier Ernest Manning and Mrs. Manning, Mayor John W. Fry and Mrs. Fry, Robert B. Streiner, U.S. Consul in Edmonton. Spdn-Ldr. J. A. Forbes, RCAF, chaplain, Col. J. W. Bowers, U.S. Army divisional surgeon, representing Col. J. C. Clifton, with Service Command, U.S. Army; Air Vice-Marshal T. A. Lawrence, officer commanding Northwest Air Command; the Rev. George M. Edwards, minister, St. Stephen's Baptist Church; the Rev. L. A. Wallis, secretary, ministerial association; Henry Grey and Lt. V. Durre, side to Lt.-Gov. Bowen.

### FOUGHT FOR HUMANITY

"We believe God gave us a victory because we fought for the cause of humanity," Col. Dougherty said in his address. "Today we come to acknowledge that without Almighty God there would have been no victory." The U.S. chaplain said today we must work not to stifle in the Allied victory, but to realize the tremendous responsibilities victory has brought.

His spoke of the Allied victory to master secrets of the atomic bomb, declaring God gave the Allies victory by leading their scientists to first discovery of the devastating weapon. "The atomic bomb, used by vengeful barbarians, might well be

HOLD EVERYTHING—No, no, Junior—I'll stunt your growth!

the end of civilization," Chaplain Dougherty concluded. "We must change the nature of man himself if we are to have peace and good will on earth."

### MUST CHANGE WORLD

"If our victory and our thanksgiving is to be a lasting reality, we must change the world to one of love. We must change the fears in men's hearts into a trust around the world. If the dawn of Peace is really to come, we must take Jesus Christ at his word and learn how to love our enemies."

"We can only justify the sacrifices of the war by guaranteeing to banish war itself," Chaplain Dougherty concluded. The hymns "Now Thank We All Our God" and "Lord of the Land" were sung by those attending the service. It concluded with benediction and the national anthem.

### Asks Allied Lands To "Adopt" Jews

LONDON, Aug. 20.—(Reuters)—A plea to the United Nations to adopt as their "special wards" the Jewish survivors of Nazi concentration and death camps was made yesterday by Dr. Stephen Wise, speaking at the World Jewish Congress. Dr. Wise, Congress president, claimed the present status of these people was little better than during the years of German oppression.

### Passes at 104

PLYMOUTH, England, Aug. 20.—(Reuters)—Mrs. Elizabeth Sarah Curzon, of Plymouth, who never took shelter during air raids, died Saturday, aged 104. She claimed that she had never had a cold or a headache in her life.

## Must Harness Atom To Human Welfare

LAKE COUCHINGHOE, Ont. Aug. 20.—(CP)—M. J. Goldwell, CCP leader, said here Saturday night that the atomic bomb "must be harnessed to human welfare, controlled and socialized."

In an address to the conference of the Canadian Institute on Public Affairs, he warned that the bomb "presents mankind with the stark alternative, to suicide or fundamental social change. It did not get 'in' into the capitalist scheme of things."

Its control and supervision must be vested in the security

council of the United Nations and at the same time that opinion must be buttressed by world opinion until it becomes an absolute effective check against aggression.

Mr. Goldwell reiterated warnings toward the emperor of Japan may be the attempt of reactionary interests in this country and in the United States to reach an understanding with the business monopoly families of Japan.

### End Price Control

BOGOTA, Aug. 20.—(AP)—The Colombian government abolished price control in a decree yesterday which held it was unnecessary in view of the war's end.

# The ROAD AHEAD

By Capt. HARPER PROWSE, M.L.A.

ALL during the war years patriotic citizens and organizations of every kind have been repeating their promises that they will never forget how much they owe to the men who joined the armed forces, and that they will see that service men get all the "breaks" when they return. Those promises meant a lot to the men who have been doing the fighting in this war. And now they are coming back they will expect those same citizens and organizations and the country as a whole to keep those promises.

**ALBERTA MOTOR ASSOCIATION**  
The AMA Serves You Every Day  
Look to the Left First...

When you step off the sidewalk inevitably the first line of traffic approaches you on your left. Yet almost everyone looks across the street first, then they look for traffic on their own side of the road, and in the meantime they start to cross the street. Look to your left first.

## ROAD REPORTS

Drying fast at Slave Lake; rough at Lac la Biche, Wainwright, Okotoks, St. Paul, Churchill, Barhead and Thorby; muddy at Wainwright, Vermilion, Lloydminster; good at Edson, Two Hills and Camrose; weather clear throughout the province.

anese balloon, several of which fell on this province. The display under the direction of Lt. Day drew large crowds.

The third picture shows Air Vice Marshal T. A. Lawrence, CB, air officer commanding, North West Air Command, introducing His Honor Lt. Gov. J. C. Bowen during the opening ceremony of the show.

To the right are several members of the crew of the Lancaster bomber X-for-Xterminator. The bottom picture shows a group of youngsters moving along the huge platform built around "X-for-Xterminator" which has 84 operational trips over enemy territory to its credit.

The storm struck just as the official opening of Lancaster Day was completed and the large crowd that was rapidly filling through the gates, took shelter in every available hangar and building adjacent to the aircraft display and the entrance to the RCAF Station.

As the rain and hail beat down, those who were not fortunate enough to have reached cover, the band of the Elementary Flying Training School, RCAF, Yorkton, Sask., and the Pipe Band of the Veterans Guard of Canada entertained the crowds standing into one of the hangars on the station.

The storm made it impossible to carry out the air show program of sports events as well as the tennis tournament, but it was understood late Sunday that all events scheduled for the track and field program as well as the tennis tournament should last 20 to 30 years.

These Shingles Should Last 20 to 30 Years

ROCK WOOL

Fire Proof—Sanitary—Easy to Install—Permanent

2" Rock Wool Batt—15"x24"—Paper-faced

## City Soldier Plays Prominent Role in Hollywood Motion Picture

Seven days of association with movie stars in and about Hollywood is a highlight in the military career of Sgt. Major J. W. Stubbs, 101st Street, who gives the part of a German Private in the M.O.M. picture "Son of Lassie" showing this week at the Capital Theatre in Edmonton.

The sergeant-major is at a loss to explain how he was selected from the personnel at Currie Barracks, Calgary, to go to Hollywood and take part in the production, but he and half a dozen other army men were chosen by Col. Louis Scott, DCM, ED, commander-in-chief of the camp to proceed to Hollywood.

He has had two years of service overseas with the Southern Highlanders of Canada, returning to this country as a corporal in March 1943, since that time he has been stationed at various training stations in Canada.

At the time he was selected to assist in the filming of the picture he was "in charge of motor cycle training at the Calgary centre. He is now an instructor at about midnight Sunday. In the picture he represents a member of the German Gestapo who is endeavoring to catch the escaped RCAF prisoner of war, played by Peter Lockwood. The big "Son of Lassie" described by the sergeant-major as a "wonderful show" is an adaptation to his master that he is used by the Germans in their efforts to capture the airman.

Sometimes, regardless, the sergeant-major confessed that he had not had the opportunity to meet some of the Hollywood actresses, though he found the people with whom he did work a fine bunch to get along with and he had the opportunity of very considerable association with the star Peter Lockwood.

He has not got onto himself on the screen, but intends to remedy that omission as soon as military station permits.

**Auto Missing**  
Sergeant Hunchak, Redwater, has reported to police the theft of his 1934 maroon sedan from in front of a residence at 902 101A avenue about midnight Sunday. License number is (Alberta) 31258.

## Varied Program Provided Thousands of Edmontonians Witness Air Force Display

The terrific storm that swept in on Edmonton from the west early Saturday afternoon had a dampening effect on the Lancaster Bomber, "X-for-Xterminator", the Mosquito fighter, and the other aircraft that were on display in an effort to raise funds for the RCAF Benevolent Fund.

The storm struck just as the official opening of Lancaster Day was completed and the large crowd that was rapidly filling through the gates, took shelter in every available hangar and building adjacent to the aircraft display and the entrance to the RCAF Station.

As the rain and hail beat down, those who were not fortunate enough to have reached cover, the band of the Elementary Flying Training School, RCAF, Yorkton, Sask., and the Pipe Band of the Veterans Guard of Canada entertained the crowds standing into one of the hangars on the station.

The storm made it impossible to carry out the air show program of sports events as well as the tennis tournament, but it was understood late Sunday that all events scheduled for the track and field program as well as the tennis tournament should last 20 to 30 years.

## Visitor Suffers Injury to Eye

H. A. Draxler, visitor from St. Paul, received treatment in the General Hospital late Saturday for an eye laceration he suffered when allegedly struck by a nail on Jasper street at 8 p.m. police said Monday.

Mr. Draxler told police he was passing a group of servicemen with his wife, when language caused him to tell the sailor to "buckle down". He said the sailor then struck him with some object in his hand.

The injured man received first aid in a drug store.

## Diplomat Coming

Dr. Francisco del Rio, Mexican ambassador to Canada, will arrive in Edmonton Tuesday in the course of a private tour. He is accompanied on the trip by his wife and family.

## Quick Action

Quick action on the part of Dr. G. A. Gernsey, armed with a small electric fire extinguisher Saturday afternoon put out a fire in the Clark Hotel building, 10015 5th Street. Slight damage was done. Equipment from No. 2 and No. 5 fire units responded to the alarm.

PRIVATE BREWER ABROAD

## In Anguish Over Other Girls' Entertaining Mates

### G.I. Wives' Lot Tough; Mental Anguish for Them To Be Sitting at Home Knowing Husbands Out With Others

DEAR MISS DIX—Grated that our husbands are facing the agonies of bullets and mortar fire has been occurring to anyone beside me. I am sure every girl who is in the war, wife, that it is mental anguish for her to be at home, lonely and bored, knowing her husbands are out drinking and dancing with other women?

They don't even try to conceal it. Every camp in the country opens its doors and brings in girls to entertain the soldiers. Then the girls invite them out the following week-end, or maybe they invite the girls. I do know that there are very few soldiers sitting around lonely on week-ends, whether they are married or single. I have been to army camps and heard married men with children, boast of their husbands. All that the army wives can expect or hope is that their husbands

love them "best." I have talked with heartbroken wives, driven half-mad by what they know. But I am sure every girl who is in the war, wife, that it is mental anguish for her to be at home, lonely and bored, knowing her husbands are out drinking and dancing with other women?

They don't even try to conceal it. Every camp in the country opens its doors and brings in girls to entertain the soldiers. ## Bulletin Patterns

By ANNE ADAMS

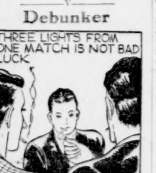

The charming frock and hat for the teen-ager can be made by the young lady herself. Pattern 4766 has ribbon drawn through white eyelid trim. Make hat to match.

Pattern 4766 comes in sizes 12, 14 and 16. Size 12, frock and hat, takes 2½ yards 20-inch fabric.

Sand Twenty Cents (20¢) in this pattern. Print plainly Size. Name, Address, Style Number.

Send your order to The Edmonston Bulletin, Pattern Dept., 60 Front St., W. Toronto, 1, Ont.

Please allow a week or ten days for delivery.

The only one who gets any bad luck from lighting three cigarettes or cigars from one match is the manufacturer of matches. Yet the old superstition still survives and countless people will not accept the third light from one lighted match.

The superstition is said to have originated during the Revolutionary War and was derived from the idea that the time required to light three cigarettes from one match was just long enough to allow enemy snipers to get the location of the light and to open fire. The belief was given more credence during the first World War, and it said to have been promulgated by Krueger, the great match king.

## Personal Health Service

By WILLIAM BRADY, M.D.

HERE is a booklet purporting to be a high vitamin, high mineral, corrective, protective diet, a basic health diet on which to build or pattern your own diet. As it stands it does not, and in my opinion specific diet can be conveniently followed in these days of refinement, preservation and manipulation of food will provide all of the vitamins and minerals required to maintain good nutrition and good health. I believe it is necessary and advisable to supplement our daily diet with a fair ration of vitamin D and B-1 (thiamine) and C (vitamin C), especially in childhood adolescence and old age.

Copyright, 1945, John C. Dine Co.

## Your Baby And Mine

By MYRTLE MEYER ELDRED

THIS is heart of the polo season, a phrase which terrifies so many of young children. Relatively little is known about how children acquire infantile paralysis and for that very reason mothers have to take extra precautions to see that their children live a kind of life which will prevent illness.

There are, unfortunately, not even any definite symptoms by which polio might be recognized until it is a severe headache. One cannot, at this season, ignore any of these symptoms and consider them trivial. Better be too careful than too casual.

If the child seems ill, whatever his symptoms, if his neck seems stiff or his muscles painful, keep him away from other children and call the doctor.

The following precepts are compiled in a bulletin from the National Foundation for Infantile Paralysis, Inc. Cut them out and hang them in the medicine cabinet.

(a) Avoid overeating and excessive exertion. Do not let your child plunge into extremely cold water on a hot day.

(b) Avoid sudden chilling such as would come from a hot bath.

(c) Pay careful attention to personal hygiene, as thorough handwashing before eating. Hygienic habits should always be observed.

(d) If possible, avoid tonal or adenoid operations during epidemic season.

(e) Avoid disease, diagnosis or treatment, if possible, during epidemic season.

(f) If a stamped, self-addressed envelope is enclosed, letters should be mailed before eating. No reply can be made to queries not conforming to instructions. Address Dr. William Brady, 538 El Camino South, Beverly Hills, Calif.

The following precepts are compiled in a bulletin from the National Foundation for Infantile Paralysis, Inc. Cut them out and hang them in the medicine cabinet.

(a) Avoid overeating and excessive exertion. Do not let your child plunge into extremely cold water on a hot day.

(b) Avoid sudden chilling such as would come from a hot bath.

(c) Pay careful attention to personal hygiene, as thorough handwashing before eating. Hygienic habits should always be observed.

(d) If possible, avoid tonal or adenoid operations during epidemic season.

(e) Avoid disease, diagnosis or treatment, if possible, during epidemic season.

(f) If a stamped, self-addressed envelope is enclosed, letters should be mailed before eating. No reply can be made to queries not conforming to instructions. Address Dr. William Brady, 538 El Camino South, Beverly Hills, Calif.

## War Kitchen

By GAYNOR MADDOX

Now is the season ETATON N. Now is the time of belated wedding receptions for couples married just before the uniformed groom had to sail. If there was no time then for receipts, then is now. Here is a summer supper for the marriage feast.

Wedding supper: curried sea food salad with bread and herb omelette sandwiches, wedding cake, large cups of coffee.

CURRIED SEA FOOD SALAD (Serves 24)

One pound crabmeat or other seafood, 1 pound shrimp cleaned and prepared, 1 head celery, 1 to 2 cucumbers, cubed small, 2 tart apples cubed small, ½ pound sweet-cured pickles cut fine, 1 pound

## Tomorrow's Menu

BREAKFAST: Melon, ready-to-eat cereal, ready-mixed cereal muffins, butter, jam, coffee and milk.

LUNCHEON: Frankfurters, potato salad, toasted rolls, sliced tomatoes, peanut cookies, tea, milk.

DINNER: Hot chicken and tomato soup in cups, soda crackers, curried sea food salad, herb sandwiches, vanilla ice cream with sliced peaches, white cake, coffee, milk.

Planned Paper  
WASHINGTON, Aug. 26.—(AP)—President Roosevelt had in mind starting a newspaper in New York once he completed his fourth term, Stephen Early, secretary to the late president, said yesterday. Mr. Early said Mr. Roosevelt had conferred and discussed the project to the point where he had decided. But if you are mixing by hand, and paper should be tabloid size. Just mix three batches of batter, quickly, one after the other. Two batches will be needed for the lower layer, the top for the upper. Fall recipe tomorrow.

## FRIENDSHIP FOSTERS UNITY

300 years ago Calvert said: "Preserve unity and peace"

The future of the world depends on UNITY

We, of Canada, are best fitted to assure the preservation of the close comradeship between Britain and America, for we are the friend of both, the interpreter of one to the other.

The security of the world depends greatly on the continued cooperation of the British Commonwealth and the United States. It is the birthright of every Canadian to foster that friendship.

Calvert, man of vision, foresaw in 1622 today's great partnership between the British Commonwealth and the United States.
